Step 1

Hello Guys my Self Mohanish From India and i'm also an Mechanical Engineer and working as a Designer. i would like to know that how to make robots? frankly speak i'm totally unaware about it. i was try searching on Google but cant find anything what i required. on Google i was find this site and its look like what i required
I need to know how robot works?
I need to know which parts are Required for making 4 wheel Drive Robot with operated with Laptop or remote control
I need to know what parts do what things.
i need to know from where i get that all parts.
i need to know how to assembled all that parts electrically and mechanically both
All of u r requested to shear your knowledge with me
here i'm attach 2 Photos which i was make in 3D
